

TV SCREEN MOUNTS

MOTORISED TV MOUNTS

018-6064W Motorised lift stand for 37"- 80" TV screens,
Connected

The KIMEX 018-6064W motorised smart TV lift is a smart solution designed to accommodate a TV screen measuring between 37 and 80 inches. Intended for installation within a piece of furniture, this floor-mounted lift raises the television on command and then retracts it after use. Controllable via an RF remote control or the Tuya app on your smartphone, it is suitable for both private individuals and professionals in the hospitality and AV integration sectors.

It features three fixing points (one on the floor, two at the rear of the column), ensuring maximum safety. The screen is placed on the mount without the need for any assembly tools and is secured by two anti-detachment screws. The supplied top cover plate allows a finishing panel to be fitted, ensuring a flawless aesthetic finish. Once in place, the screen extends to the desired height via the RF remote control or the Tuya app, thanks to a silent motor that guarantees optimal comfort. The smart functionality via the Tuya app allows you to control the screen remotely from a smartphone, in addition to the RF remote control. This intelligent mount allows you to set and save your preferred height: the screen stops at the specified position every time it is used. It is adjustable, with a minimum height of 79 cm and a maximum height of 184 cm, and a deployment speed of 30 mm/s.

Key benefits:

- Smart motorised lift for TV screens from 37" to 80" weighing up to 60 kg
- Controlled via RF remote control or the Tuya app on a smartphone
- Fits into a piece of furniture to make the TV appear and disappear
- Stores the stopping position for automatic positioning

Specifications

No.

018-6064W

TV Compatibility	37"-80"
VESA compatibility	75x75, 100x100, 100x150, 100x200, 150x100, 150x150, 200x100, 200x200, 300x200, 300x300, 400x200, 400x300, 400x400, 600x400
Installation	Floor
Fixing	To be screwed to the floor
Function	Electric
Energy consumption	100W max
Height / floor	Adjustable height from 79 cm (low position) to 184 cm (high position)
Max load	60 kg
Characteristics	Remote control and Tuya application
Remote control frequency	2402MHz
Movement speed	30 mm/s
